One of the great experiences of being a graduate student is being a part of an academic community and engaged in a culture of thought and inquiry. It is a time to focus on exploring contemporary educational issues and theory, and really thinking about what we do as educators.

We recognize that for online students it is difficult to further engage yourself in extracurricular learning opportunities that might be available to you if you were on campus.

In an effort to build a community of learners, the Educational Leadership Program is pleased to announce a new and exciting Webinar Series for all of our graduate students. These will be noon-hour webinars offered each month with a live presentation by a faculty member or administrator. Topics will address current faculty research, contemporary educational practice, and topics that will be of interest to you as a graduate student.

The faculty and administration in the COE and the Educational Leadership Program want you to get the most out of being a graduate student. There are so many academic resources available to you as a student to grow professionally and academically, so get engaged!
The following is the list of upcoming Webinars

Basic Details:

For all those wanting to attend the EDLD Webinars, please access through the following link: http://connect.georgiasouthern.edu/edleadership/
Participants should simply choose to enter the room as a "Guest" and type in their name. There is NO username or password required for those attending. Log-on about 5 to 10 minutes early to make sure everything is working. You should also have a microphone with your computer should you want to ask the presenter a question. If you can’t participate, each Webinar will be archived and available on the EDLD website. We hope to see you there!
