This draft program of study is for the Ed.S. graduate candidate to use as a planning guide for projected course enrollment. A completed Program of Study with the required signatures must be submitted to the College of Graduate Studies for final review and approval no later than the end of the semester prior to the expected graduation term. At least fifty percent of the courses applicable toward a graduate degree must be courses in which enrollment is restricted to graduate students (courses numbered 6000 and above). If 5000 level courses are included on the Program of Study, one must have enrolled in the 5000 level courses with the “G” suffix which is required to earn graduate credit. No more than six (6) credit hours of independent study may be included on the POS. No more than nine (9) hours of credit taken under non-degree admission may count toward degree requirements.
