

## Portal Partnership Meeting Notes

October 27, 2008

Attending: Larry Motes, Abraham Williams, Emory Hagins, Dianne Bath

- Ms. Bath welcomed everyone back.
- Ms. Bath shared the final draft of the goals and timelines developed by the members.
- Mr. Motes gave an update of the community. The sewer system was still waiting for EPD approval.
- Mr. Hagins and Mr. Williams were still supporting the afterschool program for students.
- General Discussion: It was felt that it was time to begin to talk further with community members about the goals and timelines to get further feedback. They thought that a meeting sometime in January or February would be good. Ms. Bath was going to get a list of school council members from the elementary school and the middle/high school. It was decided that a meeting in December to discuss the community meeting would be good. A date of December 17 at 12:00 noon was set and the meeting would be at Pepper Jacks Restaurant in Portal.
