

GSU Tripartite Meeting
April 10, 2008
Notes

Attending: Judith Repman, Brenda Marina, Caren Town, Stephanie Kenney, Pat Parsons, Dianne Bath

Article Discussion – “The Public Purpose of Schooling”

Equity Self Study – The final draft was reviewed for approval. IRB review was completed. Group approved the final draft. A discussion about who to administer it to so late in the semester led to the group members administering to their classes, schools, or groups before trying to go to a larger setting. This would inform us as to whether or not we needed to edit the survey in some way. Bath would send an electronic copy of the survey to the members and they could use as best they could with a group.

CLEC Grant – Brenda Marina discussed applying for the grant to bring a national speaker to the campus and was looking at someone with an international focus. The group suggested someone around the “Two Million Minutes” video and if the grant approved would support the Dean’s use of the video at the opening meeting in the fall of 2008. This led to a discussion about this becoming the first in a COE initiative to focus us on the globalization of our world and the challenges it presents to our students. All supported Brenda in submitting the grant.

Local NNER Initiatives:

Portal Partnership (DN) – Bath reported that the work was moving along and there was an interest in looking at the Full Service Community Schools Grant. Meetings with Catherine Hendrix was planned to determine what resources she might have and support for the grant.
