

Good evening all,

Just to summarize a few decisions from our meeting today, I am sending this email to ensure we are all informed on our next course of action. We decided we would begin with identifying focus areas of the COE research agenda. Toward that end each member will review documents to research existing criteria of strategic plans for the university and specifically for COE.

The following people have chosen to review the documents listed below.

Brenda Marina - COE Strategic Plan
Meca Williams-Johnson - COE Strategic Plan

Anne Marshall – University Strategic Plan
Michelle Reidel – University Strategic Plan

Susan Trimble – Georgia Center of Educational Renewal documents and available data sets
Dianne Bath – Georgia Center of Educational Renewal documents and available data sets

Each member will collaborate with their partner and report areas addressing the needs of educational research as it applies to professional development activities and support for grant writing initiatives.

Everyone should submit their lists to me by November 9th via email mecawilliams@georigasouthern.edu. I will compile the documents and send to the entire committee. Our next meeting will be in 1100J on November 12th at 3:00 pm

Lastly, we will read the documents from the previous committee members (handouts from Jennie Rakestraw) detailing the function and scope of the COE research committee policies and procedures.

I look forward to working with everyone and sharing ideas on creating a research agenda for the college.

Peace and Power
